Mind Technology presents...

P.E.A.C.E. Sessions Personal Energy Alignment, Clearing and Expansion Sessions

Improve your Connections with Life.

Schedule a session now to have your energy centers cleansed, drained, aligned and expanded. The results vary. What is common is that you are plugged in to your Source with much less interference.

"The session... helped me physically to where the Fibromyalgia doesn't hurt so much. I could "feel" the "pulling" [out of old energies] in my abdomen and hips. I also sensed a mind-shift and I started walking with my head high again."
M.S. San Antonio Feb/2011

You are SO much more than what you see in your physical form. As science tells us you are vibrating energy that is dense enough to be physical. Your energy expands all around you for many feet. You have at least seven energy centers in your body that connect you to this more expansive unseen energy that is constantly providing you all that you require and request from life.

BUT when these energy centers have not been tended to and **when you have experienced 'life hard knocks' they can clog** up and prevent your good from coming into your life experience.

You are designed to live a magnificent life, to be abundant in all ways, to be creative and to **accomplish your soul's desires** while you are here.

Call or e-mail to schedule a session now to help you on that energetic level of life so that you can get on with life, living, loving and doing who you are here to be/do.

*"Vision improved...colors more vivid, everything more beautiful . Have a feeling of being open...feels good. Sleeping amazingly better . I can take full deep breaths now!
Dynamics between me and daughter much improved .
Stress/tightness carried in shoulders is gone..no longer hold shoulders tense/up . Have been very thirsty since Tues...usually don't drink a lot of water but have been since session . Seems like my dog is more in tune with me .
General feeling of peace, contentment, positive outlook.
Thank you again. You have helped me so much. Keep up the great work you are doing!"* Vicki (better and better), Austin, March 2011
